"First, let me introduce myself. My name is Mohamed Sabry, and I'm a Full Stuck web developer with 2 years' experience. In that time, I've worked as a <u>PHP</u> web developer for Part Time and full time, and looking for New Challenge.

This may not sound like a lot of experience, but finishing my second year as a developer has been a giant step for me. This is because I had real experience doing web development and too much programming experience in general.

But I look forward to my chance to prove myself

Thanks"

Personal information:

- **Name** : Mohamed Sabry Mohamed Mansour
